

Prim Buddies

Primrose Schools, ISO 9001:2008 certified

It is not for our family, it is not to secure a good position, it is not to earn money, it is not to obtain a diploma, that we study. We study to learn, to know, to understand the world, and for the sake of the joy that it gives us.

Prim Bulletin

Welcome to yet another issue of Prim Buddies!

October was adventurous with the cyclone Nilam hammering Chennai. We were closed for few days, letting the kids appreciate the forces of Nature. How infinitely powerful the winds can be.. teaching us the simple, poetic wind that wipes away our heartaches can be mighty and mammoth as well. We learnt something from Nilam too. We learnt how small and insignificant we become in front of the expansive creations of the Divine. We learnt how significant we can still be, living and contributing every moment to the fullest. A truly humbling experience.

We celebrated Dr. Abdul Kalam's birthday. The genius and the inspirer was honoured to our level best.

Our first attempt at dedicating a day to the senior members of the Primrose family, our Grand Parents, was a big success. Heartfelt thanks to all the grand parents for so unreservedly joining in. All for the happiness of their proud grandchildren.

The little ones in the KG sections became Community Helpers for day. Thanks to our lovely kids and their ever supporting parents.

**With Love and Hope,

If I had the wings...

If I have Wings. If I have wings. I could fly. I could fly up to touch the sky. I would feel like a bird and fly around. The world without any visas or passport. I would visit all the beautiful creations of God like mountains, deserts, north poles etc. If I have wings I could take patients to hospitals without bring stuck in traffic jam. But the truth is I don't have wings. God has gifted me many other good things using which I can still help others.

Natania Meryn, Std II

If I have wings. I will go high up in the sky, over the hills, over the trees, over the mountains & over the oceans. I will fly along with birds without any worries & fear. I will visit every corner of the world to hear voices and laughter. If I have wings, I will bring you by my side every sunrise and every sunset. If I have wings. I will enjoy my life most.

Salik, Std II

If I have wings. I will enjoy like a Bird. I will come to school and return to home with the help of my wings. I will go to forest and collect different types of fruits. I will visit to my native frequently and meet my grandfather and mother. I will go around the world and see different countries, people, hills, rivers, valley's etc.

Kamala, Std II

If I have wings I will fly high. If I have wings I will go to all places quickly. If I have wings I will enjoy the journey because I don't like car due to vomiting. If I have wings I will reach mount Everest and fly our national flag saying loudly "Vanda Matharam".

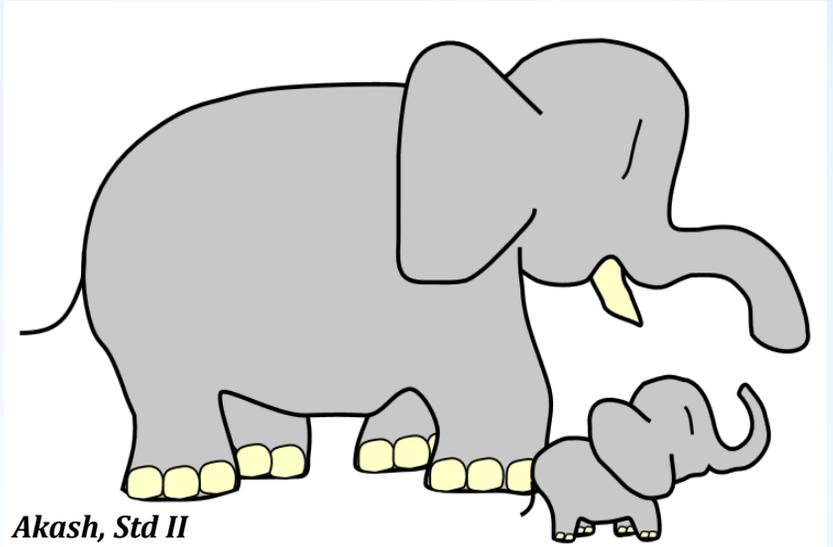

D.R. Varshnee, Std II

Story Time

Once upon a time, there lived an elephant called Jumbo. He is a huge animal and everybody in the forest would make fun of the way he eats, drinks. One day he saw a beautiful bench. He went slowly and sat on the

bench. It broke into pieces. Another day he went near the banana tree and took some bananas. The tree fell down.

Everybody laughed at him. He had no friends at all. One day all the monkeys from the forest were playing in the pond. A lion was secretly looking at the monkeys.

Akash, Std II

He was planning to attack them. The elephant alarmed the monkeys. The monkeys got alerted and ran away from the place. Then the monkeys knew the importance of Jumbo. They all thanked him and made him as their best friend. Jumbo was a happy elephant thereafter.

King Krishnadeva Raya was the ruler of Vijayanagar kingdom in South India. Tenali Raman served in the king's court. All courtiers were jealous of Tenali and told the king that he can change iron into gold and that he doesn't share the secret with anybody. The king asked Tenali whether it was true. Tenali asked for time to prove himself. He brought a dog

to the court with a tail tied to a pipe. The king and all others laughed at his foolishness. The king told Tenali that the dog's tail cannot be straightened. Tenali tells to the king, "Same way, one can never make gold from iron. King understood that his courtiers were jealous of Tenali. He scolded them and rewarded Tenali.

Janavi, Std IV

I can draw..

Prim Quote

*We are on earth to progress and we have everything to learn.
With My Blessings.*
