

Prim Buddies

Primrose Schools [ICSE]

It is not for our family, it is not to secure a good position, it is not to earn money, it is not to obtain a diploma, that we study. We study to learn, to know, to understand the world, and for the sake of the joy that it gives us.

Prim Bulletin

Welcome to the January issue!!!

The students at Primrose Schools finally returned to school on January 3rd almost after two months of rain holidays! It was a hectic time for everyone to be back to their normal routine. They had to start studying for their upcoming exams too.

This month was a hustle - bustle for all the students as their exams were scheduled on a revised date starting from January 11th as announced. Exam fever set in as the dates neared! Yet, few days of Pongal holidays cooled our excited nerves....Phew! All the exams were done; and every one of us eagerly awaited our results.

On January 26th our school celebrated the 67th Republic Day bringing in cherished memories. The celebration opened with a colorful march past; we then took "the Swach Bharath" pledge. Students and teachers pledged uniformly to keep their environment, school and home clean. Everyone promised never to litter and never to let anyone litter.

It was indeed a mighty step by children of all schools to build their future in India with a clean environment to live, clean air to breathe and pure water to drink. After the pledge, we all enjoyed the performance of our teachers that showcased their skills apart from teaching. Hope you have a wonderful month.

UNFURLING PRIM BUDS

A week before my birthday!

I am very happy and excited as next week is my birthday. I will turn 11 years old. I will step into a new year on 15th February, 2016. I will get special blessings on this day. Surprise party gifts and I will get new dress. A delicious frozen cake also!! I can choose a person with me on this day to distribute chocolates.

Siya Jithin, IV

If we didn't have birthdays

If we didn't have birthdays, we wouldn't be what we are. We might be a door knob! Or a fish! Or a toad on a tree! Or a bag full of hard green tomatoes! Or worse than that....

*But you... You ARE YOU!
And now isn't that pleasant?*

Stanley Nirmal, IV

If we didn't have birthdays

If we didn't have birthdays, we wouldn't be human beings. We may be a clam or a bird on a tree or a bag of tasty potatoes. We may not be born. If you aren't born then you can't be present. Be we are ourselves, so we should have fun and be happy.

Vinayak Dasika, IV

A week before my birthday!

I am very happy and excited as I am going to step into a new year and my age will be 10. I will get a new colourful dress. I will get many blessings from relatives and elders. I will get many surprise gifts. I will also cut a tasty, delicious cake. It will be my day.

UNFURLING PRIM BUDS

Let me be.....

A girl is differently-abled and is bounded to a wheel chair. People expected her to sit on the wheel chair without making a sound. People wanted her to smile even when she is sad. She has to have patience and never sigh.

There are so many thoughts inside her head. When she starts talking, some strange voice comes from her lips. She is not able to perform a simple task. Even she has a mind like everyone. Don't ignore her.

She wants people to talk to her. She says it doesn't matter even if I don't understand. She

wants people to include her in their talks and spend time with her. She says, "I am also alive, I would like to use that life".

Natania Meryn, V B

The Moon

The moon is like a pearl
In the blue black sky;
It goes rolling to the east
Is happy and spreads its milky light
And the stars like diamond crystals
look scattered in the sea
We feel that diamonds smile at us
with their twinkling eyes;
At last they hide somewhere
When the king, the sun arrives.

Shaina, VI

Quote Of The Month

Be the change you want to be in this world. Mahatma Gandhi

How Non Alignment Movement [NAM] is the Soul of India

In the present day we may think that there is no cold war, so there won't be any need for the NAM. But we are wrong, NAM's objective is not only to fight against aligning any of the power blocks during the cold war or against imperialism and colonisation which has been completely eradicated from the earth like smallpox. NAM has periodically changed its main objectives, like disarmament, anti-pollution, economic development, anti-terrorism.

NAM may not be a non-aligned movement on the present day but when a time comes when the nations of the world are again forced to choose between two superpowers, then NAM would play a major role in giving aid to all those countries who do not want to align with any of the power blocs.

NAM's *panchsheel* principles had helped many of the member states from misunderstandings and confrontations. NAM also tries its best to bridge the gap between a poor nation and a rich nation. This role is still to be completed as there are many underdeveloped and developing nations in the world which still has a long way to being developed.

NAM still needs to find other objectives for its sustenance. The world is not any more bipolar, nor does it have any imperialistic countries who have any colonies or subjugated nations. Nearly all the nations of the world have got its independence.

Thus most of NAM's major objectives have been achieved, so it has to take up other objectives like complete disarmament, anti-hunger, vaccination to all, compulsory cleaning of rivers and water bodies, conservation of wildlife, control of population and also pollution checking in countries. So I would like to conclude that NAM should not be completely forgotten and it should reinstate the solving of the modern life problems stated above as their objectives to more efficient and effective.
