

Prim Buddies

Primrose Schools [ICSE]

It is not for our family, it is not to secure a good position, it is not to earn money, it is not to obtain a diploma, that we study. We study to learn, to know, to understand the world, and for the sake of the joy that it gives us.

Prim Bulletin

Hey!!!! Welcome back!!!!

"A country's greatness lies in its undying ideals of love and sacrifice that inspire the mothers of the race."

--Sarojini Naidu

Like always last month was very interesting with several events happening in Primrose. The most important event was CHSV MUN. Many of us had a great learning experience that will forever be in our minds.

In this month's issue you will see many pictures and articles from fellow students. Happy reading!!

CHSV MUN

CHSV MUN stands for Chettinad Hari Shree Vidyalayam Model United Nations. I was one among the many students, our school sent to attend this conference! All of us were asked to register and in the process we had to select which committee we wanted to be in and if we were lucky we would get the one we wanted. My first option was 'WHO'. World Health Organisation and the agenda was 'Preventing femicide and reducing abortions'. Luckily I had received a mail from CHSV, saying that I was successfully a part of 'WHO' and was the delegate of 'Jordon'. This 'MUN' was my 4th one and the experience was absolutely amazing! Not only you gain a huge amount of knowledge about pressing world issues, at the end of the day you also get to come up with proper solutions to solve them. Every committee drafts a resolution and very few pass them successfully, we passed a resolution and the outcome was amazing! Our chair and Co-chair actually send it to the actual 'WHO'. The conference goes on for two days. The first day representatives of countries (delegates) address their countries say on the given agenda, and we debate on the various topics our chair (Head of the conference) gives us. Usually this is the phase where we learn a lot about our agenda.

The next day, the debate on various topics continue and after lunch breaks things begin to get a little serious. We divide into blocks and we draft resolutions. A block is a group of delegates representing various countries. We had two blocks, two sets of resolutions out of which only one from a particular block will be selected unanimously. Our set of resolutions got the most number of votes and we made it quite strong with proofs.

A committee is only said to be successful, only if it passes a resolution. We passed one, and by one I don't mean 'one'. I mean more than it is resolutions in one paper. I got to learn a lot, see new people and make friends. The experience on the whole was wonderful!
