

# Prim Buddies

Primrose Schools [ICSE]

*It is not for our family, it is not to secure a good position, it is not to earn money, it is not to obtain a diploma, that we study. We study to learn, to know, to understand the world, and for the sake of the joy that it gives us.*

## Prim Bulletin

Welcome to the November issue!!!

“Champions aren’t born. Champions are made from something they have deep inside them – a desire, a dream and a vision. “- Muhammad Ali

### The Real Reason behind hosting a Sports Day

Has anyone ever wondered why we even have a sports day? We must all work so hard every day for almost 2 months to just display it on one day! But that’s not the real reason behind putting up a sports day every year. Not only is it to display all our talents and abilities, a sports day is essential for displaying team work, everyone’s competitive spirit and to also teach every child a life lesson on winning and not winning.

There’s so much behind holding competitions like running races, long jump, etc. other than to award the winning child with a cup or medal. It’s not even held to show everyone who is great in sports or whatever. Holding a competition is purely to teach a student that winning a cup is not a big deal. But what IS important is whether you put in your best efforts, cup or no cup. So even you didn’t win anything, don’t worry. You will always get your opportunity next year and always remember one thing - Sometimes we need to lose the small battles in order to win the war.

# Fun Facts on Sports!

1. A race car with a wood-burning engine finished 3rd in the 1927 Indianapolis 500.

2. Boxing legend Rocky Marciano invented the fax machine.

3. Studies show high school tennis players score significantly lower on math tests, it is assumed because of the sport's illogical 15-30-40 scoring system.

# HARD WORK + TEAM COOPERATION = SUCCESS

Dripping sweat. Muscle cramps. Racing heart. So much of effort put in to make Primrose's Sports Day a grand success! I'm pretty sure everyone, including teachers, working staff, the Edusports group and especially the children had a strenuous experience throughout the sports day.

Even though we all were literally burned in the sun, made to sweat like crazy and drained of all our energy, it was for a good cause and for sure did not go to waste. All the arrangements made by the staff and teachers for a good display, the helping hand of the sub-staff and the cooperation of the students from classes Pre – KG to Class 11 eventually led to victory! Although our individual efforts were very crucial to

an amazing Sports Day, the combined team work of all our school members was also very essential. None of this could have been achieved without the KG children putting on a performance without any whines or if the akkas hadn't provided us juice to keep our energy levels high. The teachers also acted as the glue of our program, for they efficiently handled all problems and sealed the efforts of everyone into a bundle of success. A big shout out to our Principal Sir and our Director Ma'am, who took meticulous care to ensure the smooth functioning of the Sports Day. But definitely, we must mention all the amazing students whose hard work also were a key to sweet success.

So from this, we can come to a conclusion that the recipe for success includes equal parts of Effort and Team Work!
