

How to use Traxilla, GPS tracker app

1) Download the mobile app “Traxilla” from the Android play store.

Open the browser in your smart phone and go to

<https://play.google.com/store/>

Search for “Traxilla app”. Download and install it on your phone.

2) Click on the Traxilla icon on your phone.

3) You will see a screen as below:

Type in the following:

Service provider = prs

Mobile number = Your mobile phone number

** prs stands for Prim Rose School*

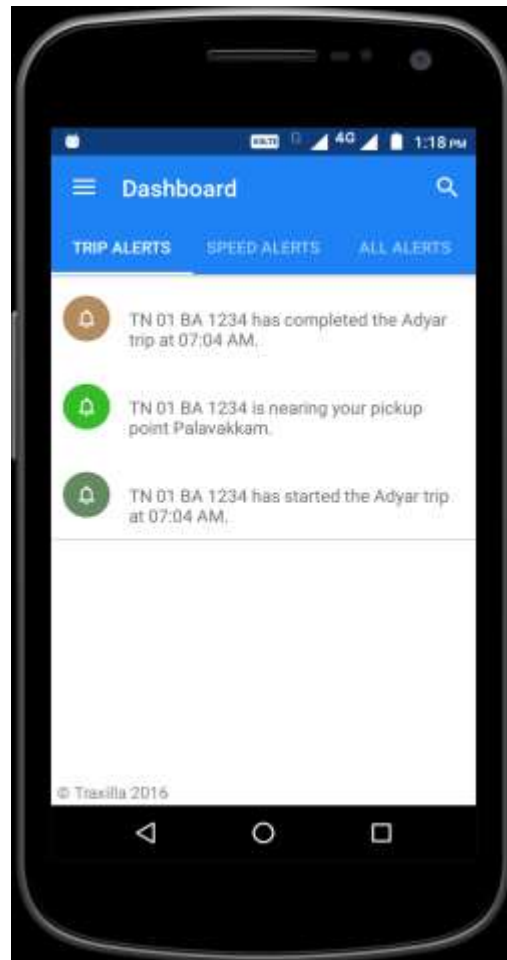

4) Authenticate your phone by clicking “VERIFY OTP” button

If your number is already saved in “prs” database, it will show a screen like below to authenticate your phone. Next type in the OTP received (via SMS) to authenticate your phone.

5) Dashboard

Once the phone is authenticated, the app will auto login to the system and take the user to the dashboard.

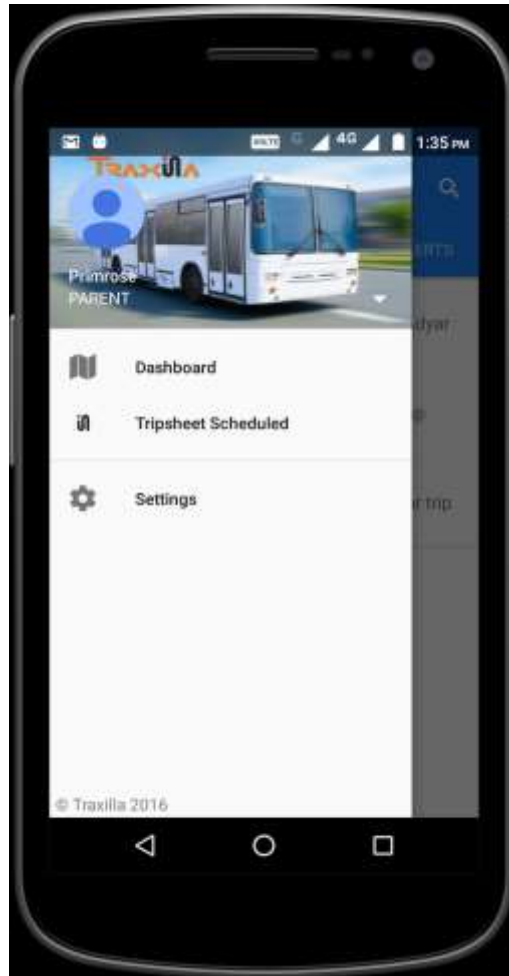

This dashboard will show the Vehicle Arrival alerts received by your phone.

6) Menu

Click on the Menu icon on the top left (the 3 horizontal lines). It will slide in a menu and the screen will look like below.

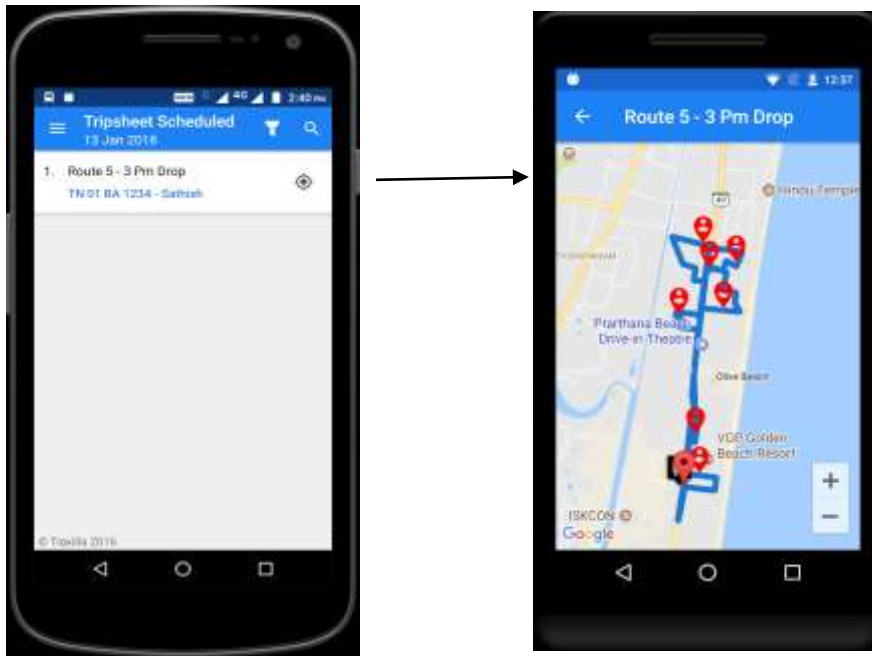

Once the Parents logs into the Traxilla app, they will be able to view the menu items shown below.

7) Trip Sheet Scheduled :

Click on the Trip Sheet Scheduled in the menu list (below the dashboard). It will list the corresponding trips for the respective consumers like below.

Against each trip, there is a location icon.

Click on the  icon to locate the vehicle (screen on the right hand side.)

Note : Parents can track their vehicle only during the tentative timings of their respective trips.
