A PRIMROSE SCHOOLS EDITION

"April hath put a spirit of youth in everything" quoted by the well known play writer **William Shakespeare**. The month of April known for its kindness and youthful spirit.

The month started with warm love of our XII students in their graduation cum farewell day. Our students, teachers and parents spent a happy day reminiscing the memories. The evening was thawed with the drenching adieu from the juniors towards their seniors.

The students' from class VI, VII revealed their expressive form of writing in literature through Creative Writing Contest and the winners were awarded.

“No sight is more provocative of awe than is the night sky” says the British essayist **Llewelyn Powys**.

To motivate the students interest in aero-space and aeronautical education, a sky-gazing event was organized. The event was a grand success with the active participation of everyone. The students were encouraged to inquire more facts about the witnessed crescent moon with the teachers.

Yoga is not a religion, but is a way of living towards a healthy mind in a healthy body. The yoga skills were brought out by our students on the event held by CISCE Regional pre-yoga champions 2023 at Usulampatti. The stage was well utilized by the students where they managed to exhibit their asanas in a gentle way Ms. Purvi Naik of Grade VIII and Pavana Pushpak of Grade X were selected to represent our school in the National Olympiad Competition which is to be held on 28th and 29th of May at Kolkata.

Progression is possible through enriching the teachers in the art of expressing and improving themselves. Our teachers sharpen their saw with the training session on the topic of “Seven Habits of Highly Effective People’. More to come on the next month.

The cosmos aids us towards success when we self reflect. Keep focusing on our life goals and march towards it. Victory is ours.

Regards,
Principal

Class XII - Graduation Batch 2022-23

Class of
2023

Our XII students' graduation cum farewell party was celebrated on April 6. our students had an emotional roller-coaster where the the juniors had given a hearty send-off with different performances.

Creative Writing

Creative Writing :-
Best part in your
school days

Name :- Keertham
Class :- IV Lily
Roll.No :- 13

School days are the amazing part of our life. They give us a lot of fun, happiness and enjoyment. One such best school I went is "Primrose schools".

The best part of Primrose School is the celebrations! I love all the celebrations. It is very creative and fascinating. It is so special and surprising. It even has a lot of special events. But one of my most favorite celebration was the "Annual Day". Me and my friends did a amazing welcome dance.

My second best part is the "Field trips!". Field trips are very interesting and knowledgeable where we learn something new. Me and my friends went to the "Sea Shell museum". We learned about the sizes, color and shapes of shells, pearls, minerals etc.

The third best part is "Vasuda Vatsalya!". Where there ^{are} many events where we can expose our talents. I have won many awards.

This means the famous quote

"Talent does not needs age to Success."

Creative Writing

Topic: What makes you laugh so hard?

Name: Sphatika

Class: V - Lily

One day the weather was crisp and shine and I went to school. The 2nd period was sci and it was substitution. So I asked Tanmayee, Fidan & Dipasha to come near me. They came and I said I had the worst "Nightmare" yesterday. So I started to tell my scariest and funiest dream. One day we 4 are there in class, suddenly a teacher without head came in and the head was walking near my legs. Suddenly Dipasha's eyes fell down, Tanmayees teeth fell down and I started eating her teeth, Fidan was eating my hand. Then I woke up. After saying this all of us started laughing badly. Our tummy and cheeks started paining of laughing. Then they said that "you are the person who is getting weird dreams".

Next:

↑ This one is real. ↓

One

Again one sci class mam came and thought us about food chain. In the book it had a picture of grass → deer → lion and mentioned as short food chain. Abheek told that grass eats deer we all laughed very very badly.

↑ This one is real too.

Creative Writing

My time machine almost uses the theory of the James Webb telescope, which sees into the past with the help of the light waves. My time machine on the outside should look like a pentagon and it should disguise around the surroundings because I don't want anybody in the past to know about my time machine. My time machine should be powered with sound waves because sound is the only thing that existed from ^{Big Bang} ~~the beginning~~ if ~~the~~ time machine doesn't have any power.

Creativity is just connecting things. Exquisite association of ideas is applied to reason out the creative machine that Pratyush of Grade VI has invented through his writing. "The Time Machine" born through his creativity to conquer Time!

After a day of work, today we are starting to recycle it. We first cleaned the dirty plastics ~~on~~ with a clean scrubber and started recycling it. My mom and dad took some recycled plastic and started to grind them for hours and hours as the plastics were very hard.

Making the best out of the BEAST – The Plastics. The most hazardous kind of waste is the waste we do not recognize! The concern and care for environment made Nithin of Grade VII to demonstrate his idea of reusing plastics in his creative writing contest.

ISO 9001:2015 Audit

A regular audit is much essential for an organization to provide a better performance and to attain recognized position. the meeting started with a opening meeting along with the principal, Head of the departments and level incharges. The ISO audit team shared their assessment review, appreciated the value-based system of education and added some valuable thoughts for the long-term vision.

ISO 9001:2015 Audit

A closing meeting was held along with the teachers and the audit team where different inputs was given by the team. the result of audit came out with flying colors where the output came with no conformance.

Beat the Heat with Buttermilk

It is always important to stay hydrated to be active and healthy. To beat the scorching heat of the sun, Primrose provided buttermilk for all the parents, students, teachers and the public.

Yoga Olympiad

Yoga teaches us how to listen to the body. The buds of primrose showcasing their yoga skills on the CISCE Regional pre-yoga champions 2023. Our students Purvi Naik of grade VIII and Pavana Pushpak of Grade X acquired their positions into the National level Contest to be held at West Bengal.

SKY GAZING

The sky is an infinite gallery which amazes us with lot of fascinating wonders. We initiated a sky gazing event for our students, teachers and parents on 25 April, 2023.

SKY GAZING

The participants behold the eternal beauty of the Crescent Moon through the Sky Gazing Event. The Event turns out to be a platform to stir-up the interest of students in Aeronautics and Space administration. The thirst of space knowledge reflected through every pupil's eye which was considered as the great success of this initiative.
