Battle against drug is a national concern. As proposed by the Government, Drug Awareness Day was organised on 11th August 2022 at our school to raise realization on mental illness caused by drug addiction and its adverse effects like, making youngsters incapable to take decisions on career, share responsibilities of their family, build friendship and even civil sense. The students of class IX to XII were addressed by Mr. Durai Raj, Sub Inspector of Police from Neelankarai Police Station. Children took a pledge, promising that they will never ever attempt to use drug and they will also join the mission to fight against it in the society.
