Foreword...

Warm Greetings!

We at Primrose believe in a joyful learning experience and every child is motivated to participate with zeal. They are encouraged to grab every opportunity to develop their holistic growth. Thus understanding the importance of critical thinking and having an emotional balance.

I believe the year 2019-2020 saw a dramatic influence of technology in today's society demanding more preparedness and skilled students. We provided a pedagogy that arouses their curiosity to discover the mystery of the world we live in.

We also equip our teachers with latest technologies to cater to the imminent needs of our children. They are trained with simple yet innovative teaching strategies that help them to teach more effectively in turn making the students academically inquisitive, scientifically innovative, spiritually wise and emotionally strong.

We call the parents to come in partnership with the teachers in molding our students in such a way that they become the true global citizens of India.

It has been an amazing journey with my students, rediscovering the magic that learning brings in the life of every Primrosian.

Let us keep flaming in our heart the fire of progress.

Message from the Chairman

"All can be done if the god-touch is there"– Sri Aurobindo

I believe that education is more than just academic excellence. Education in its true character teaches a child from a young age to be a lifelong learner and a kind human being. To attain this we need God's touch.

In Primrose, our aim is to assist students and prepare them for not only academic excellence but also to face the world and society without fear. Our education system prepares them to lead, influence and better the world around them by being good human beings with strong moral values and high ethical behavior on all fronts.

With the blessings of the Mother, lets strive for God's touch, to keep our spirits high the coming year.

-Mr. M. Nandagopal
Chairman

Message from the Director

"Success means having the courage, the determination, and the will to become the person you believe you were meant to be."

As soon as I walk through the gates of Primrose Schools, I feel its warmth and creative energy. Primrose is one school that believes in the importance of the joy of learning to fulfil a child's potential, giving them the skills and confidence to take their place with pride in a modernising and fast-moving world.

I say "Success here is not a collective measure." What matters to us is the happiness and achievements of each child according to his/her own lights and ambitions.

I want my children to imagine: for imagination embraces the entire world. So let my students be nurtured intellectually, verbally and with social skills, giving my pupils poise – the ability to act appropriately in any situation.

Thus I celebrate the diverse skills, talents, and achievements of pupils in all year groups, with the aim of acknowledging what is unique about each individual.

Shine kids, shine like a star and become our guiding stars.

Aurobindo's philosophy

Our Motto:

The place where I can be 'me'.

Mission:

The aim of our school is to help a child realize his unique potential in the light of Sri Aurobindo's vision of integral education. His philosophy of education aims at the flowering of the child's physical, emotional, mental, and spiritual personality. The cultivation of Beauty, Power, Knowledge, and Love is what he calls Integral Education.

Integral Education Ideals:

Our school is guided by Sri Aurobindo's three principles of teaching.

1. The first principle of true teaching is that nothing can be taught. But everything can be learned! This principle shifts the focus from the teacher to the student and from 'how to teach' to 'how best can the student learn.'

2. The second principle is that the mind has to be consulted in its own growth. We focus from 'we-know-what's-good-for-you syllabus' to making the student participate in a flexible delivery and learning process. The teacher is more of a facilitator or a guide here.

3. The third principle of education is to work from the near to the far, from that which is to that which shall be - The first step in learning is to establish a context that is familiar and relevant to the student from his own point of view. This ensures that the resistance is low and motivation is high. The mind is inspired to take the journey now!

We at Primrose work for a global movement towards Integral Education that strives for the development of all aspects of a child's personality.
Physical education and team sports sessions provide a strong and healthy graceful body, the first requirement in a child's education.
Children are also involved in music, arts, drama, craft, skating, and yoga so that they are channelized through freedom, leadership, responsibility, and learning by doing acquiring vital education.
Mental Education is developed through subjects like Languages, Mathematics, Sciences, and Social Sciences.
Spiritual Education is given more importance to the growth of the spirit than intellectual, inculcating values like love, truth, faith in the heart.
We give international education fostering universal love, sympathy, fellow feeling and understanding, accepting kids from all over the country and the world living together in peace and harmony, above all creeds, all politics and all nationalities.

Annual Concert
MALEFICENT

The Mega event, the "13th Annual Concert" was an opportunity to communicate the value of true love and forgiveness for the Kindergarten through the dance drama "Maleficent" and the importance of food safety, hygiene and being humane through "World War III." An old proverb says, "Tell me, and I'll forget. Show me, and I may not remember. Involve me, and I'll understand." Thus we effectively communicated the message of the hour to our beloved kids. The audience was also impressed by the performance of the students through the drama. The School Annual Report highlighted the milestone achieved during the last academic year. This was followed by the Prize Distribution Ceremony. Finally Our Director Madam, Ms. Sindura Arvind wished all gathered there, appreciated the students for their performances, to have a positive outlook towards life and especially the children urging them to make their parents proud of them.

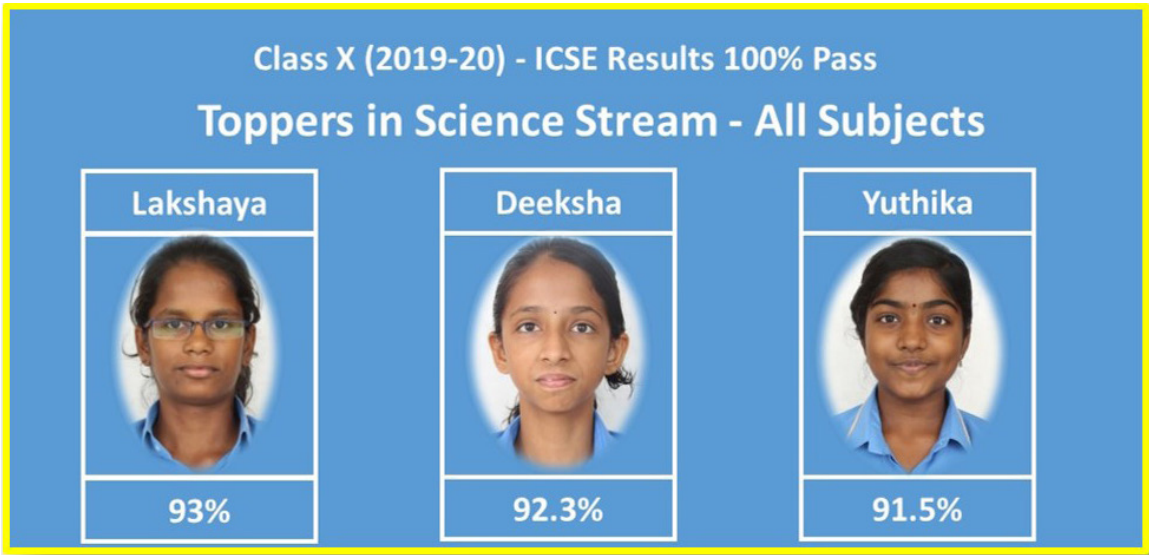

Annual Concert
WORLD WAR III

A sharp reflection of the society was well brought out by a perfect team. “Let food be thy medicine and medicine be thy food”, children emphasized the importance of organic food habits. Mrs. Chairman released the Primprints for the year 2018-19. Days are not lost when memories are created, the path we walked through and milestones we achieved encapsulated in the souvenir.

The children explored various branches of farming and their importance. Primrose ensures children step out of their classroom to experience the different dimensions of life. Gramathil Oru Naal was where all the class IX students stepped out of their classrooms with enthusiasm to explore the essence of reality. It was an experience that helped the students realize life without gadgets was fun too. The Kindergarten children progress to the next level as they begin their journey to the field trip venues. "It is not for our family,
it is not to secure a good position,
it is not to earn money,
It is not to obtain a diploma,
that we study.

We study to learn, to know,
to understand the world,
and for the sake of
the joy that it gives us"
