# Class X - Preboard Exams Open Day

**“ During exam times students need as much help as they can get, to get themselves in a positive state of mind and stay motivated.”**

## **FEBRUARY-BUSY MONTH OF INTERDISCIPLINARY LEARNING**

**“Students who have the right attitude can overcome any obstacle and achieve their goals”** As we all know, preparation and planning are essential for success, and our Grade X instructors were educating the children in this regard. The Open day was conducted after preboard exams for Grade X. All the Subject teachers and Level In- charges along with the parents were present for the same. It was a forum to reflect upon the progress of the curriculum and any suggestions related to it. The academic related questions were answered at the meeting and parents were happy and thanked the school management for its initiative to conduct Regular and Remedial sessions to improve the academic skills of Students.

**Our Principal emphasized the importance of a balanced approach to education. Him being a person who encourages our students to pursue their passion, engage in extra-curricular activities, cultivates a well-rounded outlook on life, stated that “Academic performance is just one aspect of a student’s development. While grades are important, they do not define a student’s worth or potential. Each of our students has unique talents, strengths ,and interests that go beyond what can be captured in a report card”.**

Success means having the courage, the determination and the will to become the person you believe you were meant to be. -George Sheehan, author and runner.

Students of Grade XII boys knew that patience and perseverance have a magical effect before which difficulties disappear and obstacles vanish. Primrose School has exceeded our expectations by providing high-quality education in a welcoming atmosphere. The school's emphasis on a stress-free learning environment has allowed us to thrive academically. The state-of-the-art facilities and experienced faculty create an ideal setting for effective education.-states most of the Grade XII boys and girls.

**“Education is the most powerful weapon you can use to change the world.” –B.B. King**

The Midas-touch of our students of grade XII, their regular participation, and their eagerness to complete the work on time had filled our hearts with pure joy of being in this together.

Primrose schools has been a great journey for us, we have learned to excel with fun-interaction with teachers and a stress-free environment. We realized that there's more to learn than just what's in textbooks. Primrose schools prepares us for the real challenges of exams and beyond- asserts our Grade X students.

# New Class X - Orientation Program

School had arranged for a Orientation Programme for new class X . The orientation was conducted by Mr. GANESH PERUMAL (Principal –Primrose schools)

Our Principal welcomed the students of the new Grade X. He shared a few key points such; How to strive for academic excellence, How to remain fit, How to challenge oneself to step out of their comfort zones, Ways to cultivate resilience and perseverance, How to embrace the sense of community within the school.

# New Class X - Orientation Program

All it takes for a bright future is a combination of self-assurance, optimism, and determination.

The orientation program for NEW class X's holistic advancement was carried out effectively. Providing our pupils with a top-notch education is one of our main priorities. This entails giving them the assistance they require to succeed in addition to stimulating and demanding learning opportunities. We will collaborate closely with our teachers and staff to develop efficient teaching techniques and support services in order to accomplish this- asserted our Principal Sir.

# XI - SA 2 Physics Practical Exam

Our students participated in experiments as part of the SA- 2 Physics practical test for the XI grade. The lab is well-stocked with tools, including vernier scales, battery eliminators, potentiometers, Hooke's device, and meter bridges. Additionally, the resonance condition—which frequently turns out to be appealing and interactive—can be seen. The fact that the teacher and pupils are present only heightens its significance.

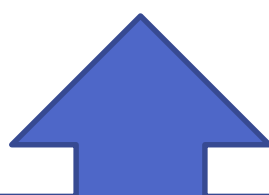

# XI - SA 2 Physics Viva Exam

SA-2 Class XI Physics viva questions were used to assess students' comprehension of particular concepts and their capacity to respond to inquiries about particular subjects. These inquiries are crucial since they shed light on the skill and knowledge levels of the pupils. They also support the evaluation of pupils' overall academic achievement.

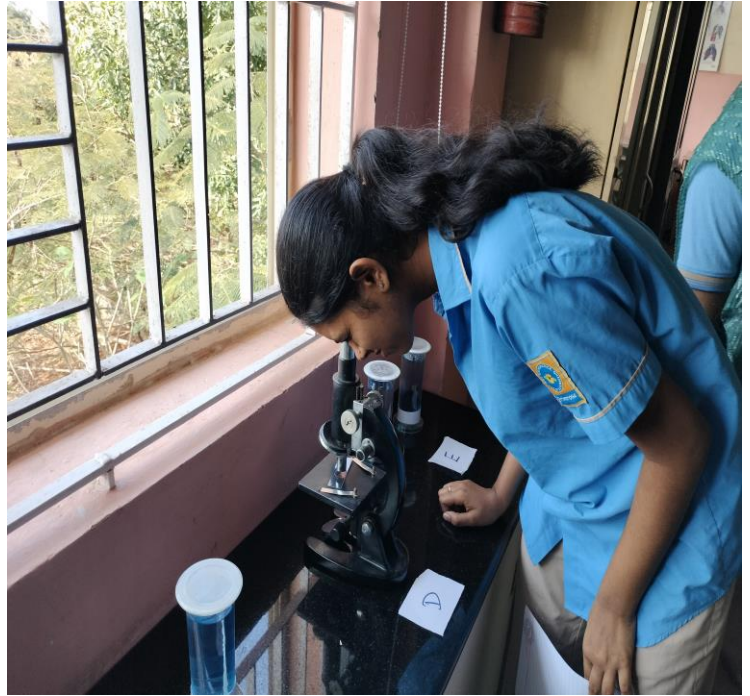

# XI - SA 2 Chemistry Practical Exam

Lab sessions are not just a requirement; they are an invaluable aspect of the academic journey. Our students embraced these opportunities to explore, experiment, discover, ask questions, challenge assumptions, and make the most of the hands-on experiences through our Class XI SA-2 Chemistry practical exams.

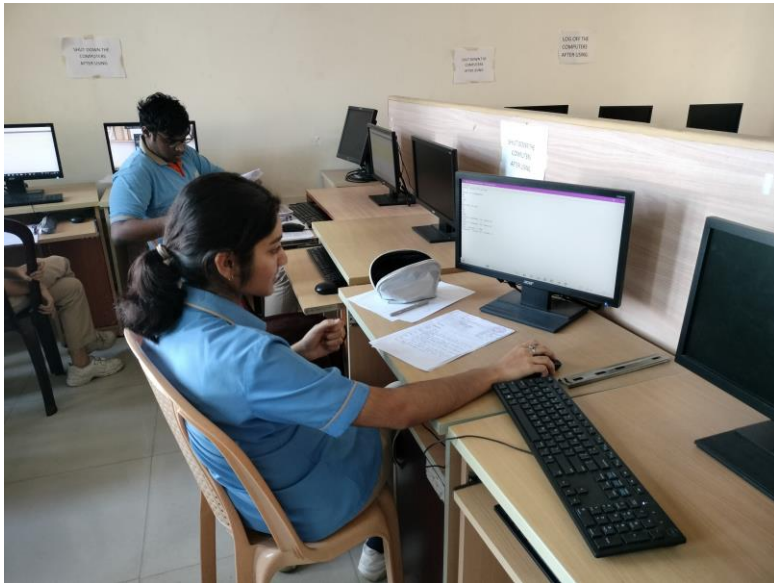

# XI - SA 2 Biology Practical Exam

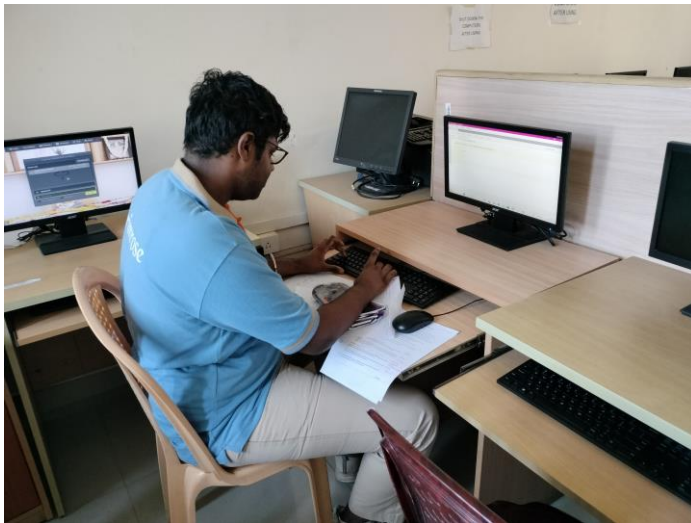

Biology that deals with the study of the living world and living organisms wouldn't be complete without practical classes. Whether you want to become a doctor or biotechnologist or simply ace your exams, remember to cherish it. Class XI –SA 2 Biology practical exams were conducted to give students an idea about the skills and knowledge they have acquired after performing the experiments.

# XI - SA 2 Computer science Practical Exam

Students can receive individualized instruction in computer labs. They are free to work at their own speed, go over any material they may have missed, and get immediate feedback on how they are doing. Their learning objectives are improved, and they feel more comfortable utilizing technology as a result.

Students of Class XI completed their SA 2 Computer science Practical Exam which will give the students a strong foundation in problem-solving, logical knowledge, and critical thinking that will serve as a competitive advantage to their career, in whatever field you choose.

Many people refer to mathematics as the language of the universe, a vital instrument that influences our perception and interactions with the outside world. Its significance goes well beyond the classroom and has a significant impact on how we live our daily lives.

Students of Class XI delved into the significance of mathematics in our everyday existence and explored the myriad benefits it offers through SA-2 Math Viva.

# XI- Art Practical Exam

Being in the art track has helped us to think outside of the box and to be more creative even outside of the classroom. We now notice the little things around us like nature and objects. We have the ability to view things differently. Overall, Art Practical exam was conducted for Class XI which has been an amazing learning experience for broadening our skills and becoming a more creative person.- insists our Art students

# Class 11 Commerce Viva Exam

Commerce Viva exam was conducted for Students of Class XI as they discussed about their projects and why they chose the topics such as marketing, human resources, or even entrepreneurship.

Our Commerce Viva exam was interesting because we were able to develop business skills: Studying commerce provided us with a range of skills that are essential in the world of business, such as financial management, marketing, accounting, and strategic planning." – claims class XI students

# Mother's Day Celebration

21st February, was celebrated as Mother Mirra Alfassa's birthday with much fanfare.

On her birthday, we reflect that divine is with us according to our aspirations. Mother said that education must contain four aspects of absolute truth: beauty, power, wisdom and love.

Students of Class IX and X gave a detailed meaning behind the symbol in an elaborated way, wherein each layer has its deeper meaning. They took us through the layers to get a sense of the different aspects of The Mother represented in this elegant piece of art.

Regular revision classes were conducted by our dedicated teachers during the board exams for class XII.

We couldn't have done without the Primrose Schools! All the teachers were very supportive. They motivated us from time to time, and most importantly, solved our doubts very patiently. The revision class was not only a place to study but also a friendly space where students felt like a team. We liked how the teachers gave special attention to each of us, and their encouragement kept us going. This whole experience didn't just make us smarter in school but also more confident to handle whatever comes next. Big thanks to these amazing teachers!-Proclaims our Grade XII students.
